Foreword

This publication details the prescribed training for the NZCF Four-Year Training Programme.

The programme provides standardisation for training and expected development within Cadet Units for CDTUT(E) – CDTWO2(E). Some content is applicable to all three Corps of the NZCF, whilst some is specific to particular Corps.

The content of the Four-Year Training Programme is not designed to fill every period during parade nights in a calendar year, but intentionally leaves scope for Cadet Unit Commanders to add content that will add value to their communities, strengthen Unit identity and provide opportunities for cadets that they may not receive outside of NZCF. However, only completion of the prescribed training will ensure that cadets can continue moving through the development model.

Delivery of the content of the Four-Year Training Programme is at Cadet Unit Commander's discretion. In time, further resources to assist in delivery will be developed, including parade night lesson plans, instructor guides and additional resources. Currently available resources should be used in the first instance for delivery of training. Where gaps in knowledge or skills exist, Area Advisors and/or Area Support Officers should be engaged.

Cadet Under Training (CDTUT) Definition

1. After initial enrolment into a Unit of the NZCF, a person will be termed as a Cadet Under Training (CDTUT).
2. CDTUT is defined as:
 - a. A person who has been enrolled into a unit, and is beginning the pathway to become a Cadet in accordance with the 170C Four-Year Training Programme, and the NZCF Cadet Development Model at CFO Vol 1, Chapter 2, Section 1, Annex A.
3. In order to advance, a CDTUT is required to achieve the 17 lessons listed below. The 17 lessons cover 20 periods and **are to be achieved inside the first 6 months** of their entry. How the 20 periods are achieved is at the Unit's discretion, but can be covered in parade nights, individual lessons, and training weekends.
4. In order to move to the rank of CDT, the CDTUT must have the following:
 - a. Completed the CDTUT phase,
 - b. No discipline issues, and
 - c. Be recommended by their Unit Commander.

Optional Lessons

Optional lessons are suggested additional training that can be undertaken subject to the Unit having time, capability, and capacity to deliver them.
